TREASURE HUNT

Tips and tools for making your next treasure hunt
A SWASHBUCKLING SUCCESS!

1 PRINT AND CUTOUT
Print these pages on your home printer. Then, with the help of an adult, carefully cut out the different markers. (Use small markers on the map and large markers for the treasure hunting area.)

2 PICK A PLACE
You can set up your treasure hunt to be outside or inside. A backyard or park may be the perfect setting, or you can set up a fun, indoor treasure hunt!

3 HIDE YOUR TREASURE
Find a tricky place to hide your treasure. Make it challenging!

4 MARK YOUR SPOTS!
Choose and mark the starting point with your “START” marker. Then, walk a long and curvy path to the treasure setting out large markers along the way.

5 MAP IT OUT
Draw pictures on your map that represent the surrounding area. Then, add your start point, corresponding markers and curvey dotted line indicating the path to your hidden treasure.

6 GEAR UP!
Make sure you have everything a pirate needs for a successful treasure hunt!

- Hat
- Compass
- Map
- Pouch
- Sword

HAPPY TREASURE HUNTING!
